Topics

Topic 1: User Stories

- All start contributing to User Stories google docs (that will be linked in GIT)
 - 2 user stories per day per person preferably
 - Each person should also add the
- All start adding them to product backlog (linked in GIT)
 - Add Story Points via scrum poker
- Create a separate sheet for estimated time for each user story (Daniel will be using these)
 - Add to it based on your own user story
- note with story points: higher the number, higher the priority

Topic 2: Back end Production:

- Daniel has already posted some back end plans on GIT (have seen some of the diagrams)
- He will continue with this for the next week until the end of the first sprint

Topic 3: Front End:

Gleb -- front end should not take too long for the main pages
Will continue onto the register/login page if he has finished this early

Topic 3: Timing:

If the current number of sprints are underestimated, we will add more items within these sprints in order to ease the load off of the upcoming later sprints

Other:

Must email lecturer about student who has dropped out of subject and is in the group
--Alana will do this and CC all others
